In order for the Chiropractor to make a determination on the suitability of my child's/guardian's case for care, I acknowledge and understand that a thorough history, evaluation and examination must be completed. I do hereby request and consent to the performance of such an evaluation and examination by the Chiropractor I have booked my child/guardian in with or any party authorised to do so by that person.

I understand I that I am encouraged to discuss with the Doctor of Chiropractic, or with any party authorised to do so by that Chiropractor, about the nature and purpose of the examination process before it begins. I understand that there may be remotely associated risks with treatment, as there are with any and all healthcare treatments. In healthcare, the matter of whether any treatment is appropriate or not is determined by looking at the level of risk and comparing this with the level of expected benefit. I understand that I may ask the doctor to stop the examination or treatment at any time. I also understand that by signing this form and giving verbal consent before the treatment that the chiropractor continues to be obligated for best practices delivered in the child's interests at all times.
